

# INSTRUCTIONS FOR USE: MINI TPE MASTURBATOR

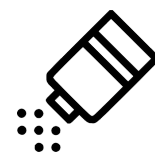

# Take it easy

## CARE

It is necessary to wash the toy under warm water and treat it with a Love Protection toy-cleaner before and after each application.

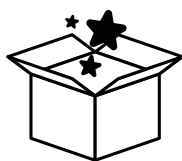

1) After a warm bath and antiseptic treatment, the toy needs to dry. Blot CHIC with a paper towel.

2) After the masturbator dries, apply the Love Protection powder for intimate toys. The powder will help to preserve the CHIC texture, making it even more soft and velvety, extending the life of the toy.

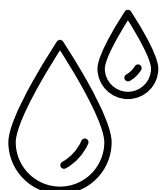

## STORAGE

Keep the toy out of the reach of children in its original packaging in a dry place, protected from direct sunlight.

## USAGE

Do not forget to use the lubricant with the masturbator. Thanks to the lubricant, masturbation will become more comfortable and pleasant. Take it Easy CHIC is compatible with silicone, water and glycerin-based lubricants.

**Pay attention!** Using the toy without a lubricant may cause damage to the soft material.
